NORTHALLERTON RURAL DISTRICT COUNCIL

ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH
FOR THE YEAR 1967

To the Chairman and Members of the Northallerton Rural District Council :

Mr. Chairman, Ladies and Gentlemen.

I have pleasure in submitting my Annual Report on the health of the district for the year 1967.

In 1967 the state of Public Health in the Northallerton Rural District was very satisfactory. The vital statistics compare very favourably with those for England and Wales and do not call for any special comment.

It is gratifying that schemes of sewerage and sewage disposal are being prepared for virtually the whole of the remaining villages in the area.

In conclusion, I should like to express my appreciation to the Members and Officials of the Council for the help and support I have received from them during the year.

I am,
Your obedient servant,
HARRY DIGGLES,
Medical Officer of Health.

Housing Acts. Improvement Grants.

During the year, 38 'Discretionary' grants were approved amounting to an estimated value of £12,494 and 14 'Standard' grants amounting to an estimated value of £2,271. Three-quarters of the money spent on these grants is made available by the Treasury and the remaining quarter out of the local Rate Fund.

The Council are to be congratulated on their enthusiasm and support in grant-aiding house improvements and it is interesting to note that over the past 13 years some 473 Discretionary Grants to the total value of £124,297 and 179 Standard Grants to the total value of £19,765 have been made. Bearing in mind that these figures represent half of the cost of improvements, over £280,000 worth of improvements have been carried out excluding the cost of necessary and incidental repairs.

Houses improved represent approx 22% of the total houses in the area at the year 1955, when the Council started making grants. 89% of the houses in the area now have the basic amenities, i.e. baths, W.C.s, etc.

Streams and Watercourses.

Streams have been cleansed at Morton-on-Swale, Thrintoft, East Cowton, Thornton-le-Beans, Welbury and Hornby.

As mentioned in previous reports. there is a continuing incidence of pollution of streams throughout the area and no marked improvement can be expected until sewage disposal schemes have been provided for 11 villages. The waste from farms, both in and out of the villages, play a large part in polluting conditions as such wastes are stronger than sewage from humans.

Rodent Control.

In exercise of their responsibilities under the Prevention of Damage by Pests Act, 1949, the Council employ a full-time operator.

Dwelling houses may receive a free service for the eradication of rats and mice, but not farms and business premises. The services of the operator are available to farmers, etc., on either a contract or casual basis.

During 1967, 12 months contracts were secured in respect of 74 farms. The total value of the contracts was £510 8s. 0d. The highest contract was £18, and the lowest £3 : the average contract figure being £6 18s. 0d.

Casual treatments were carried out at 1 premise involving 3½ hours at a total recoverable cost of £2 12s. 6d.

The following table shows particulars of work carried out :—

The service continues to operate reasonably well, but members will appreciate that, with the population expanding, the organisation must be kept under constant review. The existing method of refuse disposal at the central tip in Yafforth Road will have to receive consideration and I must reiterate that improvements and alterations will involve increased costs, which are unavoidable to properly carry out this most important public health service.

The Council possess a 1,000 gal. cesspool emptying vehicle and settling tanks in the villages are cleaned out twice yearly or, in some cases, more frequently if circumstances warrant. In addition, private septic tanks are cleaned out on request and for which a charge is made. During the year, 33 private tanks received attention involving 50 working hours. The sum recovered was £80 12s. 6d. 31 village settling tanks were cleaned on two occasions during the year.

The cesspool emptying vehicle has proved to be of great value not only for cesspool emptying but also for de-sludging tanks at the sewage works.

During the year work was completed on the combined sewerage and sewage disposal scheme for Ainderby Steeple, Morton-upon-Swale and Thrintoft and on the scheme for East Cowton.
